Area of scientific research: study of pupils with special developmental needs with the aim of vocational guidance; substantial development of vocational work with special needs pupils; development of scientific and methodological provision for individuals with special developmental needs.

Main research results: identification of professional awareness of students with mild intellectual limitations; development of a study method for professional awareness identification for pupils with other special developmental needs; identification of possibilities in utilising the Internet for vocational guidance of pupils with intellectual limitations; development of methodological guidelines for vocational guidance of elementary school students with mild intellectual limitations.

Implementations: methodological guidelines of differing issues of vocational guidance are used in special education schools (special residential schools) with intellectually limited students.

Achievements: conference attendees diplomas: 3 I degree diploma (A.Y. Repnikova, 2020; A.A. Vostrikova, 2020; M.V. Gubskaya, 2021), 1 II degree diploma (M.A. Marchik, 19.04.2019), 2 III degree diplomas (Y.O. Shibanova, E.V. Nikonovich, A.Y. Repnikova, 2019; M.V. Gubskaya, 2022) over 60 publications, incl. 2 scientific articles in VAK catalog magazines; 3 MA theses; execution of the research project funded by the Ministry of Education, Republic of Belarus ‘Methodological Development of Vocational Guidance of Elementary School Students with Mild Intellectual Limitations’ (2020).
